"INNOCENCE STOLEN: PROTECTING OUR CHILDREN"

Presented by Vincent DeVivo from the U.S. Attorney's Office, on March 8, 2018, 6:30-8:00 PM at Lime Kiln Middle School. "Innocence Stolen: Protecting Our Children Online" reviews the array of threats teenagers face when they go online. This multimedia presentation is designed to equip and empower parents and guardians to address the teachable moments that occur when accessing the Internet. The presentation speaks directly to adults. We offer the opportunity for you to bring your teenager in order to promote conversations within families about the dangers online; however, please be advised of the mature content of the presentation. Discussion topics will include social networking, cyber bullying, sexting, and Internet predators. Due to the mature content of this presentation,

students who choose to attend the presentation **MUST** be accompanied by their parent or guardian. Register early to reserve your spot as space is limited.

SCHOOL CALENDAR CHANGES FOR 2017/18 - A DAY/B DAY SCHEDULE:

Due to the fact that we have missed 4 B days and had an additional shortened B day for unscheduled early dismissal as of February 7, 2018, and in preparation for all possible inclement weather make-up days, we have made some adjustments and updates to the A Day/B Day calendar for the remainder of this school year:

- Tuesday, February 20 will be changed from an A Day to a B Day.
- If Wednesday, April 4 is used as an inclement weather make-up day, it will be a B Day.
- If Thursday, April 5 is used as an inclement weather make-up day, it will be an A Day.
- If Friday, April 6 is used as an inclement weather make-up day, it will be a B Day.
- If Friday, May 18 is used as an inclement weather make-up day, it will be a B Day.
- If Friday, June 15 is used as an inclement weather make-up day, it will be a B Day.

“FIGHT THE FLU” - Preventing Flu, Flu-like illness and GI Virus illnesses:

As you know, our region is experiencing one of the worst flu seasons in many years. Here are some recommendations from the Health Department to help prevent the spread of illness:

- Avoid close contact with infected persons. Children who are unwell should stay at home.
- Wash hands frequently with soap and water for at least 20 seconds, especially before and after eating, after using the bathroom, after episodes of vomiting or diarrhea, whenever visibly soiled.
- If soap and water is unavailable, hand sanitizers may be used. Rub sanitizer over all hand surfaces until the sanitizer has dried, then wash with soap and

water when possible.

- Teach proper cough hygiene. Transmission is possible through close contact with an infected person.
- Avoid putting fingers in the nose, mouth or rubbing the eyes. Transmission through mucus membranes after touching contaminated objects is possible.
- Students should not return to school until they have been symptom free for 24 hours. Do not send a child back to school until they have been fever free for 24 hours without the aid of fever-reducing medication. Students with a confirmed lab diagnosis of norovirus should not return to school until they have been symptom free for 48 hours.
