

Friday, April 21, 2017

As I have shared, during the weekend of April 8, 2017 a plumbing failure occurred in the ceiling above the custodial office and Orchestra storage room, resulting in flooding of the Related Arts wing and front office area at LKMS. HCPSS Facilities and outside contractors have worked very hard to clean up and repair any collateral damage that occurred.

In addition to drywall and ceiling tile repairs and replacements, the gym floor has been removed and will be replaced in the coming weeks once it is determined that the moisture has been sufficiently removed from the sub-floor. This weekend, the drywall behind a bank of lockers in that area will be repaired. The carpets in the affected areas will be replaced during the weekend of May 5-7, 2017.

I will update you again next week and as needed.

Thank you,

Lucy D. Lublin, Principal
